# VEGAN

## Premixes for brioche bread & soft cakes

We have developed a large range of powder-based vegan premixes for creating high quality and tasteful vegan baked products. Our range includes premixes for Brioche loaf, cakes, soft dough, creamy custard, tasteful fillings, eye-catching gels and glazes. The premixes complement each other well and are perfect for creating large variety. The vegan brioche premix can be used as a base to give tremendous softness for both loaf, croissant and much more. The vegan cake premix is fantastic for creating moist soft cakes with a sweet flavour. We understand the specific requirements within both the artisan and industrial production and all our powder-based products are designed accordingly.

**We hope to inspire you!**

Your Credin Team
